

What is **ORGANIC AGRICULTURE?**

ORGANIC LABELING

Organic labeling is a term for food or other agricultural products that have been produced using practices that:

- Support the cycling of on-farm resources,
- Promote ecological balance,
- Conserve biodiversity, and
- Are compliant with the USDA organic regulations.

ORGANIC PRODUCTS

Organic products are any food, feed, feed input, or fiber sold or labeled as organic in the U.S. must follow the USDA organic regulations.

ORGANIC CERTIFICATION

Organic certification demonstrate that an organic farm or business is meeting the organic regulations.
